2. HOSTETTER'S

The proprietors and manufacturers of HOS

TETTER'S CELEBRATED STOMACH BIT-

TERS can appeal with perfect confedence to physicians and citizens generally of the United

States, because the article has attained a requ-tation heretofore unknown. A few facts upon

this point will speak more pewerfully than

volumes of bare assertion or blazoning puffery.

The consumption of Hostetter's Stomach Bit

ters for the last year amounted to over a half-million bottles, and from its manifest steady

the coming year the consumption will reach near one million bottles. This immense amount

could never have been sold but for the rare

medicinal properties contained in the prepara-tion, and the sauction of the most prominent

physicians in those sections of the country

where the article is best known, who not only

recommend the Bitters to their patients, but

are ready at all times to give testimonials to its efficacy in all cases of stomachie derangements

diseases, is to the proprietors a source of unalloyed pleasure. It removes all most ill matter

from the stomach, purifice the blood, and

imparts renewed vitality to the nervous system,

the stomach, liver, and other digestive organs,

mildly but powerfully, and soon restores them

of the functions of nature.

Elderly persons may use the Ditters daily as per directions on the bottle, and they will find

n it a stimulant peculiarly adapted to confort

declining years, as it is plea-ant to the palate, invigorating to the bowels, excellent as a tonic,

and rejuvenating generally. We have the evi-

and regivenizing generally, we have the ver-dence of thousands of aged men and we seen who have experienced the benefit of using this preparation while suffering from stomach de-rangements and general debility; acting under

the advice of physicians, they have alumioned

all deleterious drugs and fairly tested the

merits of this article. A few words to the

gentler sex. There are certain periods when

their cares are so harassing that many of them

sink under the trial. The relation of mother

and child is so absorbingly tender, that the

arrive during the summer season, the went of body and mind is generally acquivated. Here,

Resolutions Adopted by the Breck-incidge Convention, July 31, 1860.

Resolutions Adopted by the Breck-Inridge Conventions, July 31, 8800. In word and the Convention of the

Resolval. That this Convention confially

georous principes upon which it was sounced.

1. Resolval, That this Convention cordially improves the Platform of Frinciples adopted by the Salional Democratic Convention, which met at the Maryland Institute in Battimore, on the 23d day of Jamo kst, and that we had the georite nations of John C. Breekinridge, of Keithicky, and Joseph Lane, of Oragon, for this chiefs of Priestdont and Vice-President Fig. 1 to United States, upon this declaration of principles, with a sincero and hearty effibusiasm.

2. Resolval, Tant by deny and denotures the doctrine of the Negulitican party, that Congress has the gower and right to intervene, and prevent, the admirgration is the Torritories of the Edited States, of citizons with their preporty, is recognized by the Federal Constitution, and the Supreme Court of the United States; unattitive was do clay and denotune the examination of the advocates of "squatter sovereignty," that, though each citizon may have the right to go but the Torritories with his property, yet that the Torritories with his property, yet that the Torritories with his property, but the Torritories that distribution of Uniques, he have no sentimined and mack of Copress, have the nower of such intervention, as equally undevolves the contradiction that cilizons may have constitutional rights, by the action of Congress or its agents, may be impatited, or destroyed.

3. Resolved, That the true constitutional and Democration being thereoly joint owners, all have an egual right to solite in them with whethere prometry they may legally peasers; and, as the rights of property and not derived from Con-

an equal right to soltto in them with whatness properly they may legally possess; and, as the rights of properly not not derived from Congress, but are inherent in the people of the sevent States, therefore, Congress, can not intervent for the purpose of catabilishing or destroying the right of properly in the service of megroes or any other description of property; but that it is its houndendary, whom necessary, to protect the rights and privileges of all citizons, without partiality, during the Territorial condition, and that when the number of inhabitants of any Territory justiles; if, "the prople there. fany Territory justifies it, "the prophe there f," in the haguage of the Uncionati platform have the right to form a constitution, with or

mine.

4. Reading! That the real nin of the Bopalitium party, as avinced by the writings and speeches of its leaders, is directly or indirectly to destry the alounouth indirations of the South, and to place the four millions of negrees new in this country upon a logal and political equality, with the white, leading to a mixture of races and consequent social equality, by which they would reduce our glorious country. In the condition of Mexico and Central America, where

differ of Moxico and Central America, where rain, degradation, decay and death have follow-ed this experiment, and would thus, under pre-tones of fraction to the negro, render freedom to the white sear impossible.

5. Resdeed, That we reject this debraing doutring as abhorrent to habrid instinct and right coson—as insulting to the laboring pas-ses, when it is thus determined to degrate from the proof position of American distants to an unsultral equality with an inferior race; and as an attempt to engreat upon this counter. of unanum equanty with an interior race find as in atturn to engine and the forms and errors of monarchical institutions by creating artificial casted inner-chases in the place of those broad, pulpable and natural distinctions which the Greator has straighted upon the bound of the first first the same factor.

place of these bread, pulpathe and natural dis-tinctions which the Greator has stampted upon the human family.

6. Readed, That the growing alrength, un-constitutional demands and, the tendency of leading politicians who have hereboire blan-true, now to thesks, for the sake of sumposad popularity, to the imperious demands of anti-staveryion, are caused for serious and profound abrue, and cause each citizen of Indiana, with-out regard to old party assignations, to burden on the armor of tenth, and go for the with the shield of the Constitution and join the true, in-demitable and incomputerable Democracy, which under the leadership of Brookinridge and Lau-has undertaken the mission of vestoring pucie-gard permanent harmony in our country, de-frending the Constitution from all assaults, and transputting quimpaired the priceless inclusion of this Union 16 dist-philitren.

7. Readed, That it is "Veccommended to the Democracy of the State of Indian's to "organize in the coveral districts, counties and termaling, for they support of John C. Breckinning, for Provident, and Joseph Lance for Vice Provident, on the basis of the philoran adopted by the Na-tional Unionettic Convention, held at the Mar-fanial Tanditiale, Ballinder, by the 23t of June last.
